Rich in culture and history, Cyprus is a thriving member of the European Union, strategically located in the Eastern Mediterranean Sea, at the crossroads of three continents. With a population of just under a million inhabitants – the compact yet diverse country offers students from around the world an idyllic and inspiring lifestyle under blue skies. Cyprus is well connected to the rest of Europe, the Middle East, and all major transit hubs via two international airports. The mild Cyprus climate, safe and secure environment, affordable cost of living, hospitable English-speaking society make it an ideal study location.

The University of Limassol has two campuses, one in Limassol and one in Nicosia.

**Limassol**
Limassol is located on the southern coast of Cyprus. It is the second largest city on the island with a population of over 200,000. Well known for its outgoing, friendly, and welcoming inhabitants. A modern hub and a melting pot of cultures, this fast-evolving city is ideal for students looking to study in a vibrant, safe and secure environment. Globally renowned as a booming business and shipping centre. Limassol is home to many global companies and fast making a name as being the Silicon Valley of the Mediterranean.

**Nicosia**
Is the largest city, capital, and the seat of government of Cyprus. A city where past and present, traditional and contemporary have seamlessly fused together. Old Nicosia is surrounded by the Venetian Walls, behind which one may discover museums, bars, restaurants and medieval buildings.

**Access to airports**
Larnaca International Airport is around a 40-minute drive to the Limassol and Nicosia campuses. Paphos International airport is a 30-minute drive to Limassol and 1 Hour 40-minute drive to Nicosia. Both can be reached by car, taxi, or public transportation.

**English taught programs**
**Exciting research opportunities**
**Funded student mobility (Erasmus+)**

**Home to leading international companies**
**Employment opportunities in the EU and global marketplace**

**2nd best climate worldwide, with an average annual temperature of 25°C**
University Highlights

The University of Limassol is an evolution of the Cyprus International Institute of Management (CIIM), a renowned business school operating in Cyprus since 1990 when it was founded by a group of leading executives and renowned academics from leading world Universities.

3 PALMES OF EXCELLENCE
EXCELLENT BUSINESS SCHOOL WITH REINFORCING INTERNATIONAL INFLUENCE

FLAGSHIP MBA

100s of graduates hold senior leadership positions in the private and public sectors

95% of our graduates are employed during or within 3 months of graduation

6 SPECIALIZED EXECUTIVE AND RESEARCH CENTERS

33 years OF OPERATION
THE OLDEST ACCREDITED BUSINESS SCHOOL IN THE COUNTRY

100s of notable academics from world-renowned universities have taught at CIIM Business School
Accreditations, recognitions and memberships

All programs offered by the University of Limassol are accredited by the Cyprus Agency of Quality Assurance and Accreditation in Higher Education (CYQAA) based on the guidelines and standards provided by the European Network for Quality Assurance (ENQA). The MBA program is also internationally accredited by the European Foundation for Management Development (EFMD Global).

Furthermore, UoL inherited the following accreditations, recognitions and memberships from CIIM, which are currently being transferred to UoL. Our MSc in Financial Services is a partner of the Chartered Financial Analyst (CFA® University Affiliation Program). Our MSc in Human Resources Management and Organizational Behavior has the endorsement of the Cyprus Human Resource Management Association (CyHRMA).

- The CIIM Business School is a member of the AACSB International - The Association to Advance Collegiate Schools of Business.
- Our MBA is internationally accredited by the Brussels-based EFMD Global for the past 16 years, and it was the 1st nationally accredited MBA in the country as of 1992.
- The Technology & Innovation School has participated in the Blockchain Technology for Algorithmic Regulation & Compliance (BARAC) Research Consortium, consisting of UCL, the Bank of England, HM Treasury, Barclays Bank, RBS, HSBC, R3 Consortium, British Telecom and ATS, funded by the UK Research Council.
- Our graduates receive, in addition to their degree, the Diploma Supplement (a model developed by the European Commission, Council of Europe, and UNESCO/CEPES). The Diploma Supplement-DS is a document attached to a higher degree aiming at improving international transparency and facilitating the academic and professional recognition of qualifications.
The University of Limassol is the evolution of the Cyprus International Institute of Management, the oldest accredited Business School in Cyprus, with a 33-year legacy of quality teaching and innovative degree programs. UoL teaching faculty include graduates and former faculty from world-renowned universities, of Harvard, Yale, Stanford, Cambridge, UCL, British Columbia, Berlin, Cyprus and others. We have 3000 graduates and over 20,000 executive alumni across the world, many in senior leadership roles. The University of Limassol is committed to providing students with a conducive learning environment and innovative teaching methods. Our goal is to nurture highly competent, cross-functional leaders that have the confidence, knowledge and innovative teaching methods for sustainable beneficial change.

UoL Rector, Theodore Panayotou PhD, University of British Columbia, formerly with Harvard University, is a “Nobel Peace Prize Contributor”, having authored part of the study for which the Intergovernmental Panel on Climate Change received the Nobel Prize in 2007.
Our objective is to develop competent cross-functional leaders with the ability to communicate across a range of business environments.

At the University of Limassol, we believe that you need a wide range of cross-functional skills, allowing you to communicate with all parts of an organisation. During the first two years of study, our undergraduate programs combine modules across the disciplines of business, economics and technology that build high-tech and high-touch skills. Our objective is to develop competent cross-functional leaders with the ability to communicate across a range of business environments. The green transition and the digital transformation are core to your degree programs helping you prepare for the challenges of an ever-changing world.
Undergraduate Programs

All undergraduates will acquire a range of high-tech and high-touch skills that will enable them to become work-ready and function effectively across organizations.

High-tech
- Programming
- Information technologies
- Digital transformation
- Data analytics
- Machine learning

High-touch
- Personal development
- Communication skills
- Team building skills
- Leadership skills
- Ethics & social responsibility

BBA-Bachelor of Business Administration

The Bachelor of Business Administration (BBA) program at UoL is designed to equip you with the skills and knowledge you need to succeed in today’s fast-paced business environment. Our program combines rigorous coursework with hands-on learning opportunities, giving you a comprehensive understanding of business principles and real-world experience that sets you apart in the job market.

BSc Computing and Business Technologies

The Bachelor of Science in Computing and Business Technologies (BSc CBT) program at UoL is designed to provide students with a unique blend of technical and business knowledge. The program aims to prepare you for a career in the dynamic field of information technology by developing your skills in programming, data analysis, machine learning, and digital transformation while also equipping you with a solid understanding of business principles and practices.

BSc Economics

The Bachelor of Science in Economics (BSc Economics) program at UoL is designed to equip you with the knowledge and skills you need to succeed in a career in the field of economics. Our program offers a rigorous curriculum that covers micro- and macroeconomics, econometrics, financial economics, and international economics.

Apply now and join a dynamic community of students and alumni who are transforming the world of economics. Our program is open to recent high school graduates and working professionals who want to advance their careers in this exciting field.

Graduate Overview

Access to the UoL specialized centers to support your continuous learning and development and meet your future goals.

CIIM Executive Education Centre provides a dynamic learning and scientifically inspired environment in which learners receive a transformational learning experience through professional seminars and workshops.

The CIIM-Centre for ESG is established with the goal to enhance the awareness of Environmental, Social, and Governance (ESG) dimensions and their integration into organisational strategy and decision making.

ENTICE, UoL’s Entrepreneurship and Innovation Centre, has the mission to contribute, through the provision of consulting, education and mentoring, to the creation of innovative new ventures (start-ups) and to the improvement of the competitiveness of existing innovative enterprises.

DEI, UoL’s Centre for Diversity, Equity, and Inclusion deals exclusively with issues of equity, diversity and inclusion and how these are linked to the UN 17 goals of sustainable development, as well as environmental, social and corporate governance (ESG).

The Bioeconomia Centre supports businesses, organizations and local authorities in their green transition and the pursuit of sustainable development. The goal set out is to provide high-quality services and to create trustworthy relations with clients and partners by investing in human resources with long-term experience and know-how, while keeping abreast of market trends and innovations.
Graduate Programs

MBA - Master of Business Administration

The Master of Business Administration (MBA) program at UoL is designed to help you achieve your career goals and prepare you for leadership positions in the global business world. Our program equips you with the skills, knowledge, and network you need to succeed in today's competitive business environment. It is the practical, can-do management qualification for the post-pandemic world, embodying more than 33 years of experience and 2,000 graduates. It is nationally accredited by CYQAA and recognized KYSATS and internationally accredited by EFMD.

Apply now and join a dynamic community of students and alumni who are shaping the future of business. Our program is open to recent graduates and working professionals who want to advance their careers in the field.

MPSM - Master of Public Sector Management

The Master of Public Sector Management program at UoL is designed for professionals who want to drive change in the public sector. Our program equips you with the skills and knowledge you need to lead complex public organizations and implement effective policies that benefit society.

Apply now and join a dynamic community of students and alumni who are driving change in the public sector. Our program is open to professionals from a range of backgrounds, including government, non-profits, and international organizations.

MSc Business Intelligence and Data Analytics (BIDA)

In today's data-driven world, businesses need skilled professionals who can make sense of large amounts of data to drive strategic decisions. The MSc Business Intelligence and Data Analytics program at UoL is designed to prepare you for the challenges of the digital era and equip you with the skills and knowledge you need to succeed in the field.

Apply now and join a dynamic community of students and alumni who are shaping the future of business intelligence and data analytics. Our program is open to recent graduates and working professionals who want to advance their careers in the field.

MSc Computer Science and Business Technologies (CSBT)

The MSc Computer Science for Business Technologies program at UoL is designed to equip you with the skills you need to succeed at the intersection of technology and business. Our program combines advanced computer science and innovative business modules, providing you with the technical and managerial expertise to thrive in today's technology-driven business world.

Apply now and join a dynamic community of students and alumni who are transforming the world of computer science and business technologies. Our program is open to recent graduates and working professionals who want to advance their careers in this exciting field.

MSc Educational Leadership and Management (ELM)

The MSc Education, Leadership and Management, at UoL, provides training in both education, leadership and management of schools, organizations and businesses. The degree equips you with educational, administrative and leadership knowledge.

*Taught in Greek

Apply now.

MSc Financial Law and International Taxation (FLIT)

The MSc Financial Law and International Taxation program at UoL is designed to provide you with a comprehensive understanding of the legal and financial aspects of international taxation. Our program combines advanced courses in financial law and international taxation with practical training, giving students the skills they need to excel in this dynamic field.

Apply now and join a dynamic community of students and alumni who are transforming the world of financial law and international taxation. Our program is open to recent graduates and working professionals who want to advance their careers in this exciting field.

Knowledge of English

EU nationals

The adequacy of English language proficiency of EU nationals for attending undergraduate and graduate programs at UoL is established through the UoL placement test. Candidates with English language deficiencies can start their studies while strengthening their knowledge of the language for academic purposes by taking the UoL Remedial English course (ESL2 and/or ESL3, depending on their placement test score).

Nationals of non-EU countries
(except those in the below 6-country list)

For both undergraduate and graduate programs taught in English a “Very Good Knowledge” of English is required at upper level B1 of the Council of Europe’s Common European Framework of Reference, evidenced by an upper level B1 score or higher in one of the approved by the Council of Ministers International English Language Tests listed below:

<table>
<thead>
<tr>

</table>
Nationals of the Australia, Ireland, New Zealand, UK, USA, and Canada
(for Canada only graduates of institutions with English instruction)

Nationals of the above listed countries, whose mother tongue is English, do not need to present a certificate of success in international examinations, or take the placement test.

Foundation Course for Learning English Language
(pending CYQAA approval)

The English Language Foundation Course is designed to prepare international students from non-EU countries with lower level B1 language proficiency (e.g. IELTS at least 4.0) for successful entrance into UoL undergraduate and graduate programs by enhancing their language proficiency to upper level B1 level (e.g. IELTS at least 5.0), or higher. This course focuses on developing the students’ English language skills in listening, speaking, reading, and writing, as well as building their academic language and communication skills required for successful study at UoL. The course is provided by UoL onsite and lasts a full academic year (two semesters, 26 weeks, 416 hours). The students will be required to take one of the approved exams by the Council of Ministers, listed above. Students attending classes in person (in Cyprus) who fail to pass any of these approved exams with an upper level B1 score will not be allowed to repeat the foundation year and they will have to leave the country.

The same course is also provided online and students can attend it from their home country without a minimum entry score. The only requirement is to take one of the approved exams listed above and attain an upper level B1 score required for entrance in a UoL program.

Candidates for UoL programs from non-EU countries, who do not meet the English language requirement of an upper level B1 score, should apply to attend either the onsite or the online UoL English Foundation Course.

Key academics / leaders

Dr. Theodore Panayotou
The Rector of the University of Limassol, is a former Faculty member at Harvard University (1986-2009) and a 2007 NOBEL Peace Prize Contributor. Director of the Cyprus International Institute of Management (CIIM) and Professor of Economics, Ethics and Sustainability & Social Responsibility at CIIM (2000-2023). He has also served as a Visiting Professor at Tel Aviv University (2010-15) and as a Member of the Cyprus President’s Council of the National Economy (2013-18). He has published over 100 journal articles, monographs and books on economic development & environment, climate change, sustainability and competitiveness. He is considered an authority on economic instruments, innovative financing mechanisms, transferable development rights and sustainable and experiential tourism.

Dr. Doron Sonsino
Dean of the School of Economics and Finance, an accomplished academic in economics and finance with a diverse educational background and a passion for quality education and frontier research. He earned a PhD in Business Economics from Stanford University in California, one of the top Universities in his field globally. Most recently he was an adjunct professor at the Department of Economics at Ben-Gurion University, Israel (2018-2021). He is well known for his top-tier publications in economics and finance, particularly in the fields of behavioural and experimental finance. His current research, on the financial decisions of private investors and professionals, provides valuable insights into their preferences over advanced financial investment instruments.

Dr. Waldemar Pfoertsch
Dean of the CIIM Business School at the University of Limassol, an educational entrepreneur, a passionate professor and thought leader of international reputation. He holds a PhD from the Free University of Berlin, Germany. His research has been published in top-tier journals. He wrote more than 30 books, five of them co-authored with Philip Kotler, the marketing Guru, globally acknowledged as the father of marketing. Together they developed thought-leading concepts in the area of B2B and B2B2C brand management and now created the H2H Marketing principles, which has been translated in many languages including Greek. He has been a visiting professor at some of the world’s most prestigious business schools, including Kellogg Graduate School of Management, the Mannheim Business School, and the Technical University Munich.
Key academics / leaders

Dr. Stathis Hadjidemetriou
Dean of the Technology and Innovation School is an Associate Professor of Computer Science and Information Technologies at the University of Limassol. He received his Ph.D. in Computer Science from Columbia University. He has extensive teaching experience in computer science, electrical engineering and biomedical engineering. He has published numerous research papers in scientific journals and presented his work in numerous scientific conferences. He serves as a reviewer for various international conferences and journals. As a post-doctoral fellow at Yale University and as a research scientist and collaborator of university hospitals in the US and Europe, Stathis has worked on biomedical image analysis and biological microscopy related to cancer, in particular. He has also worked on biomedical MRI of the brain and quantitative MRI for the whole body for cancer and other conditions.

Dr. Paris Cleanthous
Chairperson of the Department of Management and the Director of the MBA and MPSM programs at UoL and an Associate Professor of Strategy and Marketing. Dr. Cleanthous holds a Ph.D. in Economics from Yale University. He has been an Associate Professor at CIIM (2012-23) and previously held positions at New York University (the Stern School of Business), the University of Cyprus, London School of Economics and Political Science (LSE) and the International Monetary Fund. His fields of research and teaching are strategic growth, strategic innovation, marketing strategy, competitive advertising and market research with applications mainly in the areas tourism and health-care.

Dr. Andrey Afanasiev
Chairperson of the Department of Economics and Finance and the Director of the MSc Financial Services and Associate Professor of Finance and Risk Management at UoL. He received his Ph.D. in Mathematics from Steklov Institute of Mathematics and a Ph.D. in Finance from the Institute of Economics of the Russian Academy of Sciences. Andrey has more than 25 years of experience in international banking and risk management (Europe, Emerging Markets and the Gulf). Dr Afanasiev research and teaching interests are in the field of investments, financial and derivatives markets, stochastic finance, risk modelling methods, artificial intelligence and machine learning with applications in financial services.
Key academics / leaders

Dr. Olga Kandinskaia
Director of the MSc Green and Digital Management and Associate Professor of Finance at UoL. She has a PhD in Economics from the MGIMO-University in Moscow, Russia. She has 25+ years of experience in teaching undergraduate, postgraduate and executive courses in different universities in Cyprus, UK, Portugal, and Russia. Olga is a passionate advocate and avid user of innovative teaching methods such as experiential learning and the case method. She is the recipient of several case writing awards including the ‘Outstanding New Case Writer’ (2017), the ‘Jonathan Welch Award for Best Case in Accounting, Finance and Economics’ (2018) and the ‘Best Case Gold Award’ (2019).

Dr. Vias Nicolaides
Director of MSc Human Resources Management and Organizational Behavior and Associate Professor of Human Resources and Organizational Psychology at UoL. He was formerly an Assistant and then Associate Professor of Management at the School of Business, George Mason University (2016–2022). Vias has a PhD in Industrial and Organisational Psychology from George Mason University, USA. He has over 12 years of scientific research and applied work experience in the Human Resources Management. Vias has presented his work in international and national conferences and publishing it in leading scientific journals. He has worked on projects in a variety of countries, such as Cyprus, Mexico, Scotland, South Korea, United Arab Emirates, and the USA. Vias is fluent in English, Greek, and Spanish.

Dr. Ioannis Christodoulou
Director of the MSc Education, Leadership and Management and Associate Professor of Philosophy of Education at UoL. He holds a PhD in Philosophy of Education from the Aristotle University of Thessaloniki, Greece. He has been teaching in Higher Education since 2000. He was the Chairman of the Biomedical and Clinical Research Bioethics Committee (2010 – 2013 and 2015 – 2018), which is part of the National Bioethics Committee of Cyprus. He is also member of the Advisory Committee of the International Journal of Communication Research, published by the Romanian Academy of Sciences. He is the Academic Secretary of the Philosophical Society of Cyprus.
Key academics / leaders

Dr. Snezana Eminidou
Director of the BSc Economics and Assistant Professor of Economics at UoL. She holds a PhD in Economics from the University of Cyprus. Her research interests lie in the field of macroeconomics and monetary economics. She worked in the International Business Unit of the National Bank of Greece and in the Department of Economic Analysis and Research at the Central Bank of Cyprus. Snezana has seven years of teaching experience in Macroeconomics and Econometrics at the University of Cyprus and advising undergraduate students with their theses.

Dr. Christodoulos Efstathiades
Director of the BSc in Computing and Business Technologies and Assistant Professor of Computer Science at UoL. He holds a PhD in Computer Science from the National Technical University of Athens (NTUA), and an MSc in Networked Computer Systems from University College London (UCL). He held positions both in academia and industry in the fields of Data Management, Data Science and Analytics. He worked as a data analytics engineer at the Bank of Cyprus and as a technology consultant and data engineer at EY Cyprus. He lectured at the Department of Computer Science at the European University Cyprus and at the University of Cyprus. His research interests lie in database systems and geospatial data management for big data, genomic data science and the application of data mining and machine learning in other sciences.

Dr. Antonis Violaris
Director of the MSc Shipping Operations and Management and Lecturer in Economics & Finance at UoL. He holds a Ph.D. in Finance and Economics from University of Durham, UK. He has extensive experience in shipping investments and analysis of the international markets, shipping and energy. He has been instrumental in setting up and successfully managing a number of investments in the shipping sector. Prior to joining UoL he was a visiting lecturer at Cyprus University of Technology (TEPAK) and has previously served as Lecturer in other local Universities and colleges and at the University of Durham.

Dr. Kyriaki Mikellidou
Coordinator of Social Sciences and Assistant Professor of Psychology and Quantitative Methods at UoL. She holds a PhD in Psychology from the University of York, UK, with focus on Experimental Psychology and Research Methods, and an MSc in Cognitive Neuroscience, Department of Psychology from the same University. She was until recently a Marie Curie Fellow at the University of Cyprus, Department of Psychology & Center for Applied Neuroscience. Before that, she was a Visiting Researcher at Max-Planck Institute for Biological Cybernetics, Tübingen, Germany, Department for Sensory and Sensorimotor Systems.
What our alumni say

The MPSM has broadened my knowledge in management, and has taught me the importance of personality core competencies, in my search for excellence.

Ioannis Ioannou
MPSM

The MBA advanced my knowledge which helped me write my best-selling book on leadership, as well as gain skills and mind-sets to progress in my corporate and entrepreneurial career.

Parani Vs
MBA

The MSc HRM & OB has been a fascinating journey full of knowledge and valuable experiences which contributed to my personal and professional development.

Andri Antoniou
MSc HRM & OB

What’s exceptional about the MSc Financial Services program is that it puts theory into practice, offering you a strong insight into the financial services world. The program undoubtedly helped me to enhance my skills and advance my overall knowledge. Having such bright classmates and outstanding professors gives you the urge to aim high!

Marilena Paphiti

Limassol

UoL students living in Limassol can enjoy a world of options at their doorstep. Whether you’re an early bird or night owl, foodie or partygoer, nature lover or shopaholic, this city ticks all the boxes!

Coffee culture
A passion for coffee goes hand in hand with the Cypriot lifestyle. And there are few places on the island where a flourishing coffee culture is more prevalent than the streets of Limassol. The old town is a true coffee-lovers hot spot, lined with just about every type of café imaginable; from old-school traditional style ‘kafenia’ to trendy third-wave coffee shops serving aromatic artisan blends. If you prefer a relaxing caffeine fix with sea views, head to the nearby Molos promenade or Old Port area.

Eating out
Often celebrated as the gastronomic capital of Cyprus, Limassol is every foodie’s dream, with top-rated restaurants around every corner. Enjoy a delicious taste of Cypriot meze, the best of Mediterranean fusion cuisine, and mouth-watering seafood. The city is also home to fine Asian, Middle-Eastern, and South American eateries. Casual joints specialising in street food are equally popular with crowds looking for a delicious energy boost before a night out. The old town is packed with casual independent joints making juicy burgers, stone-baked pizzas, tempting tacos, hearty noodles, and more. International fast-food chains and franchises are also easy to find around town, especially by the Limassol Marina and along the Germasoyia coastal strip.

Shopping therapy
Once mostly associated with its high-end boutiques and designer fashion, Limassol has taken on a whole new appeal over the past decade as funky concept stores and independent speciality shops breathe new life into the city. From o�beat old town shops selling artisan jewellery and collectible books to handcrafted bags and wooden eco-friendly sunglasses, they all contribute to Limassol’s unique vibe. Anexartisias Street and Makarios Avenue also cater to various tastes and budgets, packed with well-known international fashion brands, sports stores, gift shops, and beauty outlets. For easy shopping under one roof, the city’s mall in the western suburb of Zakaki offers a world of choice alongside dining options and exciting entertainment including bowling and a virtual 6D cinema.

Beachside bliss
Whether you love a refreshing mid-day dip or dream of lounging on a sandy shore with a sundowner in hand, there are countless Limassol beaches to choose from. The Blue Flag Dasoudi beach in the heart of Germasoyia is one of the best stretches of sand in town. Located very close to a public bus stop, there are plenty of organised facilities and watersports to enjoy here. A little further afield, Lady’s Mile Beach is very popular with the locals – a 5-kilometre stretch with shallow waters, countless amenities, and some hip and happening beach bars. And if you’re keen to discover a quieter stretch of coastline, head west of Limassol to the windswept Avdimou Beach. Kick back with a good book or look out for toned kitesurfers riding the waves out at sea.

Nightlife fun
Limassol is a lively city that certainly knows how to party. And no matter what kind of music rocks your world, there’s bound to be a bar, pub, or club – or even a microbrewery – to suit your individual taste. If you want to mix and mingle with other students and locals throughout the autumn and winter, the old town is the perfect area for casual bar hopping. Head through the bar-lined web of streets that branch off Limassol Castle square and lead up to University Square and Saripolou Square. As spring approaches, Limassol attracts fun-loving crowds from around the country and beyond as annual carnival celebrations render the entire city a pulsating party zone. Come summer, the fun moves to the seafront where countless lively beach bars transform the seafront area into one big and breezy outdoor extravaganza.

Day trip inspiration
Taking a complete break away from studying and the daily routine is easy in Limassol. Embark on a trip outside the city to discover pretty stonebuilt villages and historic sites dotted across the lower vine-covered slopes of the Troodos Mountains. The villages of Vouni, Koilani, Lofou, and Lania are some of the prettiest in Cyprus and are perfect for a day out. You can even book a night away with friends in a large renovated old village house. Many even feature swimming pools and outdoor barbeque areas. At higher altitudes, the leafy summer resort of Platres beckons, close to three of the island’s most beautiful waterfalls: Caledonia, Millomeri, and Chantara. The entire Troodos mountain range is ideal for hikers and thrill seekers, and panoramic views await when you reach the Mount Olympus Observation Point between Prodromos and Troodos Square. From January through to March, head to the Troodos Ski Centre for some action on the powdery white slopes.
Limassol’s old town is laced with a maze of winding roads begging to be explored; the perfect area to spend your free time in laid-back Mediterranean style.

If there’s one ancient site that deserves to be on the top of your bucket list, it simply has to be the Curium Amphitheatre, located 13 km west of Limassol. This historic beauty is perched high on a cliff top overlooking the glistening Mediterranean sea and a patchwork of land below.

Craving a bite to eat or want to watch the world go by right by the sea? The Limassol Marina is the place to be. Featuring a mix of classy high-end restaurants and affordable chain restaurants and cafes, this Limassol landmark forms a buzzing hub of activity, especially on weekends and national holidays.
